We present radio & web
solutions
 with many advantages

Are you looking for a company that you can trust in to make sense of new technologies? We realize that many companies can be arrogant and frustrating to talk to when it comes to assisting clients, but with 12 years of experience we know what it takes to assist you with knowledgeable and comprehensive communication and solutions.

Our services include music & video streaming/broadcasting for the hobbyist right down to a professional radio or television station. We can assist you in starting or maintaining your very own radiostation and even create a professional website that you can manage yourself! We can provide your location with a fully licensed instore radio accompanied with or without custom marketing messages. No matter if you want to live your dream, brand your image or increase sales, Radiosolution will stand by you and offer the best quality service available !

Media Broadcasting in a more engaging way

- ShoutCast Streaming
 Client manageable unix based music servers for personal or professional radio stations
- Windows Media Streaming
 Live audio and video broadcasting servers
- On-demand Content Streaming
